

CHIORINO[®]
1906

Passion for belting

Your partner
for production
efficiency

CHIOLINK[™]

Quick splice
High performance
conveyor belts

CHIOLINK™

CHIOLINK™ is a premium solution for **minimizing downtime** and **increasing production efficiency**.

Thanks to the special construction it can be made endless onsite **very quickly** and in a **unique safe way**.

CHIOLINK™ high performing elastomer covers combined with a patented solution for a quick & safe splicing is a **breakthrough for belting efficiency**.

Belt design

CHIOLINK™ is the combination of a spiral polyester carcass and CHIORINO superior elastomer covers. It can be easily cut at any length and made endless on site, without the use of glues.

Minimize downtime

Increase efficiency

Quick & Safe splicing

CHIORINO Proprietary System Patented

Do-it-yourself in a few minutes without specific training Safe system In-house installation (no external fitters needed)	<ul style="list-style-type: none"> • Reduced downtime • Minimized maintenance cost • Increased operational safety
No damages to the machine and products caused by mechanical fastener	<ul style="list-style-type: none"> • No waste • Optimized Cost of Ownership
No weak points due to skived joint	<ul style="list-style-type: none"> • Increased production efficiency
Excellent stability	<ul style="list-style-type: none"> • Easy tracking
No glues	<ul style="list-style-type: none"> • Sustainable solution

Superior elastomer covers

CHIORINO Unique high performing solutions

Excellent resistance to abrasion	<ul style="list-style-type: none"> • Increased efficiency • Increased production output • Long service life
Consistent product feeding and conveying	
Highest resistance to oils, inks and chemicals	
Choice of covers according to different applications and processed products	

Unique polyurethane cover

CHIORINO Superior performances

The HP [®] polyurethane is fully complies with the latest & strictest european and international regulations.	<ul style="list-style-type: none"> • Long service life • Increased production efficiency
The special surface pattern assures high performances in inclined conveyor applications.	

CHIOLINK™

Superior coverings

HS® Unique high performing elastomer

High abrasion resistance

The unique HS® friction covers provide an excellent abrasion resistance and a uniform coefficient of friction over time.

Excellent resilience

The unique HS® elastomer offers outstanding resilience, high elasticity and crack resistance.

Long service life

Thanks to the low aging property of the cover Chiorino HS® belts provide a long service life.

Food compliance

The **CHIOLINK HS** food grade belts are ideal for aseptic packagings for food and pharmaceutical use.

They comply with the latest european and international food regulations.

EC 1935/2004 regulation and amendments

EC 2023/2006 regulation and amendments

DM 21/03/73 (test according to EU 10/2011)

FDA (Food and Drug Administration)

MF™ Self-regenerating elastomer

Long service life

MF® is a self-regenerating elastomer that maintains its properties during time and assures longer service life compared to traditional elastomer.

Consistent coefficient of friction

The special MF® elastomer offers high production precision thanks to the consistently high coefficient of friction.

High abrasion resistance

The MF® elastomer offers excellent resistance to abrasion, oils, inks and chemicals.

HP® Superior performances

High coefficient of friction

Consistent material stability in different conveyors design (straight, inclined).

Food grade compound

HP® covering for all types of packagings (food, pharmaceutical).

Special covering

Special surface pattern to optimize the transfer of boxes.

Technical data

Code	Type	Top cover			Bottom cover	Total thickness	Minimum pulley diameter	Pull for 1% elongation	Temperature resistance

Surface textures

CHIOLINK™ for corrugated carton box

CHIOLINK™ is ideal for Cardboard industry, in corrugated carton box folder gluers, in particular for Stackers and Transfers. It can also be used in other sectors as wood and tyre industry.

Quick & Safe

Splicing System and Tool

Chiorino has developed a unique and innovative system & tool that **facilitates the splicing operations**, providing benefits in terms of **Safety** for the operator and **Downtime minimization**.

The **CHIOLINK™** splicing system is a **CHIORINO PROPRIETARY TECHNOLOGY PATENTED**.

CHIOLINK™
SPLICING KIT

Tools available in a handy case,
with all necessary equipment
for the Chiorino exclusive
Joining system.

CHIOLINK™

Exclusive procedure Join-it-yourself!

- No glues
- Easy to use
- High operational safety
- No need of external service
- No need of qualified training
